

# KNS Consulting, India

Supplying India with the best jewellery equipment and consumables

## Product Highlight

### Hybrid NV Investment Powder Additive for direct casting of 3D printed RPT resins

Increase the strength of your investment powder (gypsum-based):

- Mixing ratio: 5-8 grams per 100 grams investment powder
- Safe and easy to handle
- Works with your existing burn-out cycle
- Enables complete burn-out
- Fire your flasks up to 830° C
- Significantly reduced carbon residue
- Excellent de-vesting properties for fast casting removal
- Smooth casting surfaces
- Manufactured in India by Divine Horse Multi Products
